Lower Utility Costs Without Changing How You Use Energy

Environ's Utility Bill Auditing solution helps organizations recover lost funds and reduce utility expenses through detailed analysis of electric and natural gas invoices.

The Problem..

Utility bills can be complex and difficult to understand. Most companies do not have the time or expertise to properly analyze their utility costs and make the mistake of paying bills without asking questions.

Inaccurate Bills

- Incorrect Rate Class / Tariff
- Demand Charge Anomalies
- Tax / Fee Misapplication
- Meter / Account Errors
- Unapplied Credits / Penalties
- Post-acquisition Cleanup

Lost Funds

Rising Utility Costs

The Solution

Our team provides these services so you can focus on your core business.

- Validate charges, rates, riders, taxes, and demand calculations.
- Verify tariffs and leverage rate optimization opportunities.
- Address acquisition-related complexity in meter and account validation.
- Get recovery support for overcharges and missed credits.
- Prevent repeat issues and reduce staff burden through ongoing monitoring.
- Identify inefficiencies and savings opportunities through usage analysis.
- Evaluate alternatives and lower-cost options for better rates.

Who We Work With

Facilities, Finance, and Supply Chain leadership seeking confidence that energy decisions are aligned with operational realities and budget objectives.

The Process

Provide as little as one invoice per utility to get started. Environ conducts a detailed review of rates for cost savings.

The Outcome

Recommended on-bill savings:

1. Audit findings summary
2. Savings tracker
3. Rate & tariff review summary
4. Final wrap-up
